# THE ANNUAL REPORT

OF THE COMMITTEE OF VISITORS ELECTED AT THE EPIPHANY SESSIONS, 1878, FOR THE PURPOSES OF THE LUNATIC ASYLUM, AT STONE, FOR THE PAUPER LUNATICS OF THE COUNTY, UNDER THE STATUTE 16th and 17th Vict., Cap. 97, ss. 22 and 62.

SHEWETH,—That your Committee Report in the terms of the Statute, that the "State and Condition" of the Asylum have been satisfactory throughout the year, and the accommodation is sufficient and proper for the number of Patients.

The conduct and efficiency of the several Officers and Servants are satisfactory.

The full number of Patients on the 19th day of December, 1878, the day of the last Meeting of your Committee, was as follows:—

| | M. | F. | Total. |
|---|---|---|---|
| County Patients | 151 | 245 | 396 |
| Out County Patients | 45 | 16 | 61 |
| Private Patients | 9 | 5 | 14 |
| On Probation: County Patients | 3 | 1 | 4 |
| Total | 208 | 267 | 475 |

The number of County Patients in the Asylum at the corresponding period of the year ending 20th December, 1877, was 384.

The number of Patients admitted since the commencement of the year has been:—

| | M. | F. | Total. |
|---|---|---|---|
| County Patients | 47 | 46 | 93 |
| Out County Patients | 19 | 20 | 39 |
| Private Patients | 7 | 3 | 10 |
| Total | 73 | 69 | 142 |

The amount per head per week, charged to the Unions in the County having Patients in the Asylum during the four quarters has been 10s. 6d., 9s. 11d., 9s. 11d., and 9s. 11d., being a decrease of 5¼d. per head per week as compared with the charge made for the year 1877.

The following is a table showing the cost of maintenance:—

# TABLE SHOWING THE COST OF MAINTENANCE.

Column 1 contains the Cost of Provisions consumed by the Patients.

" 2 the Cost of the Fuel and other necessaries.

" 3 the Cost of Clothing, Utensils, Surgery, Garden, and Miscellaneous Articles, after deducting the Receipts of the Establishment.

" 4 the Amount of Salaries of Officers and Servants, and Cost of Provisions consumed by them.

| | 1. | | 2. | | 3. | | 4. | | Total of Columns Nos. 1, 2, 3, 4, being the Total Cost on which the rate of Maintenance of the Patients is calculated. | Rate of Maintenance per Patient per Week. | Rate of Charge on the Unions per Patient per Week. | Aggregate Number of Days' Maintenance of Patients. |
|---|---|---|---|---|---|---|---|---|---|---|---|---|

## TURRET CLOCK.

The Clock and Tower, which was referred to in the last Annual Report of the Committee, have been completed, and the Clock is now in good working order, and keeps remarkably good time.

Two of the Commissioners in Lunacy visited the Asylum on the 26th of April last, and the following is a copy of their Report on that occasion :—

Bucks County Asylum,

April 26th, 1878.

In this Asylum, to-day inspected by us, there are 470 Patients upon the books, of whom the males number 206, the females are 264. Of the former 2, of the latter 3, are absent on probation. Several Wards exhibit over-crowding, and the enlargement of the Infirmary accommodation should no longer be delayed; the ventilation referred to as deficient in our colleagues' last entry has not been improved, and in some parts of the building the atmosphere was not wholesome. The new Dormitories for associating at night the epileptic cases, and those provided for the suicidal, are now occupied in both divisions, and we were told by Mr. Humphry, the Medical Superintendent, that the same relieved him of much anxiety. We noticed in the Dormitories for the suicidal, lines for the blinds, &c., which suggest means of self-destruction, these should, we think, be removed. In the Bath-room of the Female Infirmary no fire has been used since the accident reported to our Board, except during bathing times, and the practice has been established of keeping always one attendant at least in that Infirmary for supervision of the Patients. In both Infirmaries, and in the other Wards, we recommend separate cupboards for the medicine and lotions used, at present these have only a shelf in cupboards, used for books and other articles, and are not, therefore, so carefully kept as they should be from Patients disposed to get at them. The general state of the Wards was very proper, and nowhere was there any uncleanliness; the Bedding, too, was in a very creditable condition. We visited the Laundry and Kitchen, as well as every Ward, and saw some of the Male Patients at dinner; we tasted the meat and beer, and can report favourably of both. The fare on table to-day was boiled beef, mutton, potatoes, and greens, and the beverage was malt liquor, not strong, but sound and palatable. From no Patient came any complaints, except on the score of detention, or of removal from Oxfordshire—these latter from some of

the Littlemore cases recently transferred here. On the Female side, in No. 6, where are 45 Patients, there was much disposition to noise and disorder; this we attribute partly to the inexperience of the Nurses on duty there, 3 in number, and partly to the fact that too many unfavourable cases are there associated. Several Patients presented a slatternly appearance, while others were crouched on the ground, and in corners, or with their gowns drawn up over their shoulders. The Men were more quiet than the Women as a rule, and though many are employed on the land, and a few in trades, they were certainly as tidy in dress as the women who only helped in the wards or assist in needlework. Bathing takes place fortnightly only for each Patient during the winter. We are inclined to think that the air in the Wards would be better if the practice was weekly in winter as well as in summer. The Attendants are, exclusive of Chiefs in each division, 13 men and 18 women on duty during the day, and by night there are 3 males and 4 females sitting up. One is among the epileptic cases, another among the suicidals in the associated new Dormitories on each side. There are at present no vacancies in the Staff, but a Nurse was to-day ill in bed, and a substitute was acting for her, this woman having been got from the applicants for the situation of female attendant. It would be better, we think, always to have in the Asylum a Supplementary Attendant for such service during the illness or temporary absence of any of the regular Staff. Only 25 of the whole number of Attendants have been in the Asylum above 12 months. These constant changes among his subordinates must add greatly to the Medical Superintendent's sense of responsibility, and they cannot fail to affect the Patients prejudicially. We find from the statutory records that of the 470 Patients 387 belong to Unions in the County, the rest are either private or Out-County cases, the latter chiefly from Oxfordshire. The weekly maintenance rate for the Paupers from Unions in the County is 9s. 11d. per head. There is a large proportion of congenital idiots, and many persons are here detained who have been brought hither at an advanced age, and almost incapable of any bodily exertion. The epileptics are 24 men and 31 women. Three males are reported to be suffering from general paralysis, 1 woman only from that form of insanity, 6 men and 5 women were seen in bed by us. No one was restrained or secluded

to-day. There has been no epidemic; since the last visit of the Commissioners 48 persons have died. The only fatal casualty has been that of the woman burnt to death, which accident was long since communicated to our Board, the causes of death, with that exception, have been such as are ordinary in Asylums, and what are termed natural. 19 post-mortem examinations were made. The admissions have been 67 in the male, 65 in the female department; the discharges have amounted to 19 of men, 23 of women. As many as 80 men and 135 women are considered now to be incapable of employment; 29 females assist in the laundry; 42 men work on the land; about 20 in trades and in the domestic offices. In cleaning the Wards 54 men, and in the same way and in needlework 97 women find occupation. The Chapel congregation are reported to be 198 on Sundays—114 from the male, 84 from the female division. 84 men and 62 women are taken for walks beyond the grounds. Looking to the Asylum books we find that there has been no resort to mechanical restraint since our colleagues inspected, but 4 men have been secluded on 11 occasions—altogether for a total period of 109 hours; and 8 women have been so treated on 44 occasions for 257 hours. The only structural improvement noticeable is the erection of a Clock Tower. The occupation of the new Epileptic and Suicidal Dormitories took place last autumn; they are manifestly a useful addition to the Asylum; to test the vigilance of the Attendants there sitting up, and the performance by the Night Attendants generally of their rounds of duty, besides two old clocks there are now 12 of Dent's make—7 on the female, 5 on the male side. While commending much of the provision here made for the Patients' welfare, we cannot close our Report without again calling the Visitors' attention to the fearful results which would follow the outbreak of a fire in this establishment, while there is no system of hydrants for its speedy extinction.

(Signed)

CHARLES PALMER PHILLIPS, } Commissioners
ROBERT NAIRNE, } in Lunacy.

## FIRE ENGINES.

In compliance with the suggestions of the Commissioners, your Committee have procured 2 Garden Engines and 3 Aqua Jets for the purpose of extinguishing fire in case of an outbreak, which your Committee consider will be ample protection, for it must be remembered that the materials of which the Asylum is built are nearly all incombustible, and should an outbreak of fire take place, it could neither spread rapidly nor far before the means of extinguishing it could be brought to bear.

In the Appendix No. 1 will be found an abstract of the Treasurer's Accounts as to the Loan raised for providing Associated Dormitories for Epileptic and Suicidal Patients.

In the Appendix No. 2 will be found an abstract of the Treasurer's accounts as to the re-payment of instalments of the principal monies borrowed, and the interest thereon.

In the Appendix No. 3 is shown the amount expended in repairs, and also the additions, alterations, and improvements under sec. 38 of the statute.

In the Appendix No. 4 will be found a general statement and balance sheet of the Maintenance Account.

And in the Appendix No. 5 will be found an abstract of the Garden and Farm Account for the year 1878.

It is now the province of the Court of Quarter Session to appoint a Committee of Visitors of the Asylum for the ensuing year, pursuant to the 22nd sec. of the Statute.

(Signed)

PETER THOS OUVRY, Chairman.

# MEDICAL SUPERINTENDENT'S REPORT.

To the Committee of Visitors of the Pauper Lunatic Asylum for the County of Buckingham.

Gentlemen,

I beg to submit to you the Twenty-sixth Annual Report of the Medical Superintendent of your Asylum, together with the usual Tables of Statistics referring to the Admissions, Discharges, and Deaths which have taken place during the year 1878.

On the 15th of December, 1877, there were 438 Patients resident in the Asylum, of whom 187 were Males, and 251 were Females. During the past year there have been 142 Admissions—73 Males, and 69 Females, making a total of 580 Patients under care and treatment. The average daily number was 464, an excess over the previous year of 36.

Of the Patients admitted 93 were chargeable to Unions in this County; 9 were Private Patients; and 35 were Chronic Lunatics or Idiots received under contract from the Asylum for Oxfordshire; 1 Male Criminal Patient was admitted by warrant of the Secretary of State, his time of imprisonment having expired, he remains as an ordinary Pauper Lunatic; and 4 came from Unions in the County of Middlesex.

Twenty-two of the Admissions had been under treatment in the Asylum on one or more previous occasions.

The condition of the Patients when brought was not more favourable than in former years—51 were in bad health, and 25 in tolerable health and condition, while 16 were aged persons admitted in a state of natural decay.

Sixty-five Patients have been Discharged from the Asylum during the year; of these, 45—19 Men and 26 Women—had recovered their mental health; 3 Men and 9 Women were more or less relieved; and 5 Men and 3 Women as not improved. Of those Discharged unrecovered, 3 Men and 4 Women were removed to other Asylums. The rate of recoveries on the Admissions for the year (excluding the Chronic Lunatics and Idiots from the Oxfordshire Asylum) amounted to 42.85 per cent.

The Deaths during the year were 43 in number—25 Males and 18 Females. Calculated on the average number resident, the rate of mortality was 9.26 per cent.; and, on the total number under treatment, a per centage of 7.41. The average age at death was—Males, 58; Females, 54. The greatest age was 85, and the lowest was 14.

The causes of death (with one exception) were of the usual character. In the case of 15 Males and 9 Females, death was consequent on disease of the brain and nervous system; 8 from the decay of age; and 3 from pulmonary consumption.

There has been but one inquest during the year, and that was on a Private Patient who had for some time been allowed to go out into the grounds unattended. He drowned himself in a small tank where water for watering plants was kept. The verdict returned was "That deceased committed suicide by drowning himself, he being, at the time, in a state of derangement."

The accidents have been few, and of these only two were serious enough to require mention here. A Female Patient fell on her elbow, fracturing the humerus close to the joint; and another Female Patient, in turning suddenly round, fell and fractured both tibia and fibula in the left leg. Both recovered.

Attempts at escape have been very rare, and no permanent cases have occurred. In one instance only did the absence extend over a night.

One Birth took place in the Asylum on the 30th of July. The mother (a married woman) has since improved sufficiently to warrant her being absent on leave.

On the 24th of July, and again on the 31st, 30 Female Patients, accompanied by their Attendants and the Band, had their Annual Excursion to Velvet Lawn; and on the 30th of September 145 Men held their Harvest Home in a neighbouring field.

But few changes have occurred among the Attendants and Servants, and as a body they deserve favourable notice for their attention to their duties. Two Nurses left to be married; 1 through ill-health; and 4 resigned for various private reasons. Of the Attendants, 1 left, not being suitable; and another to enter into business.

In drawing to a close this my twenty-third Annual Report, I desire gratefully to acknowledge the continued confidence and consideration you have extended to me in the discharge of my duties.

I have the honour to be,

GENTLEMEN,

Your obedient Servant,

J. HUMPHRY.

FISH is supplied to the Attendants, and about one-half of the Patients, every Wednesday.

# CHAPLAIN'S REPORT.

To the Committee of Visitors of the Pauper Lunatic Asylum for the County of Buckingham.

Gentlemen,

At the close of the year I beg to lay before you the twentieth Annual Report of my duties as your Chaplain.

The usual routine of services in the chapel, and of visits in the galleries, has been regularly attended to; and prayers have been read every morning and evening by the attendants in charge in their respective galleries. The Commissioners in their report last year referred to the great increase in the number of women attending the chapel services since their previous visit, while the proportion of men remained the same. The attendance during the present year, I have reason to believe, continues unchanged. I have endeavoured in faithfulness and love to unfold the glorious message of the blessed God, "to speak the truth as it is in Jesus." This message is an acknowledged power to subdue the stony heart; it is indeed the one balm for every class. I beg to assure you my best energies shall be given to the work, mighty and heavenly as it is, of setting forth aright the full character of "Emmanuel, God with us," the beauty and attractiveness of Him who is "the chiefest among ten thousand, and the altogether lovely."

I remain, Gentlemen,

Your obedient, faithful servant,

CHARLES LOWNDES.

Hartwell Rectory,

December, 17th, 1878.
